X Statistically higher than the U.S. SEER white rate.

★ Statistically lower than the U.S. SEER white rate.

TECHNICAL NOTES:

All rates are age adjusted to the 2000 U.S. standard population and exclude basal cell and squamous cell skin cancers and in situ (malignant but non invasive) carcinomas except urinary bladder. The U.S. incidence rates are based on the SEER Cancer Incidence Public Use Database. U.S. SEER rates are 2000-2004 white population incidence rates.
